For construction

- Save the data for each construction point on the map.
- Receive construction stats and volumes, analyse and predict.
- Use real time collaboration with team members to keep managers up to date with relevant data.

2 point

For city administration

- Show your branches on the map.
- Collect data from each branch.
- Use real time collaboration with team members to keep managers up to date with relevant data.
- Share data with your citizens and receive updates.

3 point

For shipping

- Store all orders on the map.
- Request data from each port for received items.
- Browse the shipment progress.

Places

All food places in your hand

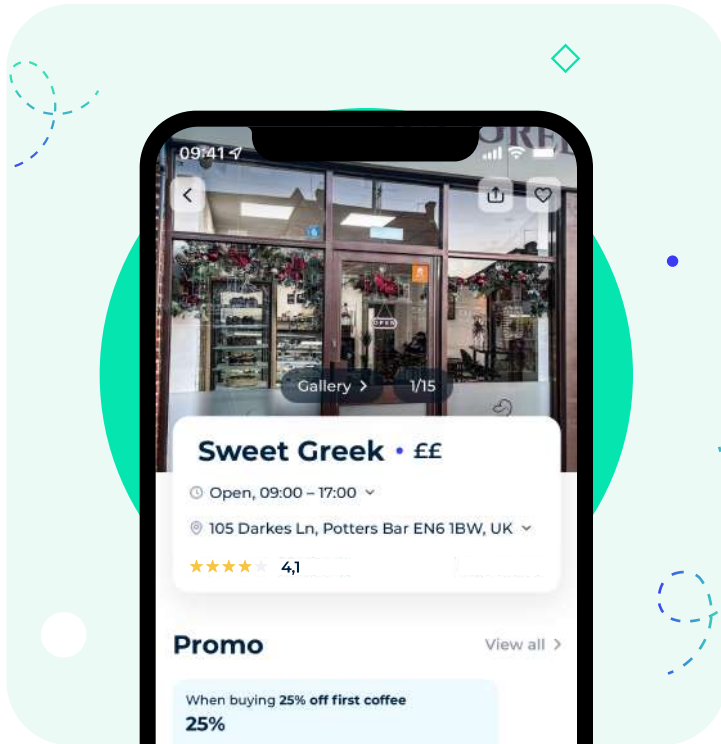

Helping food businesses to bring more clients and establish strong relationships

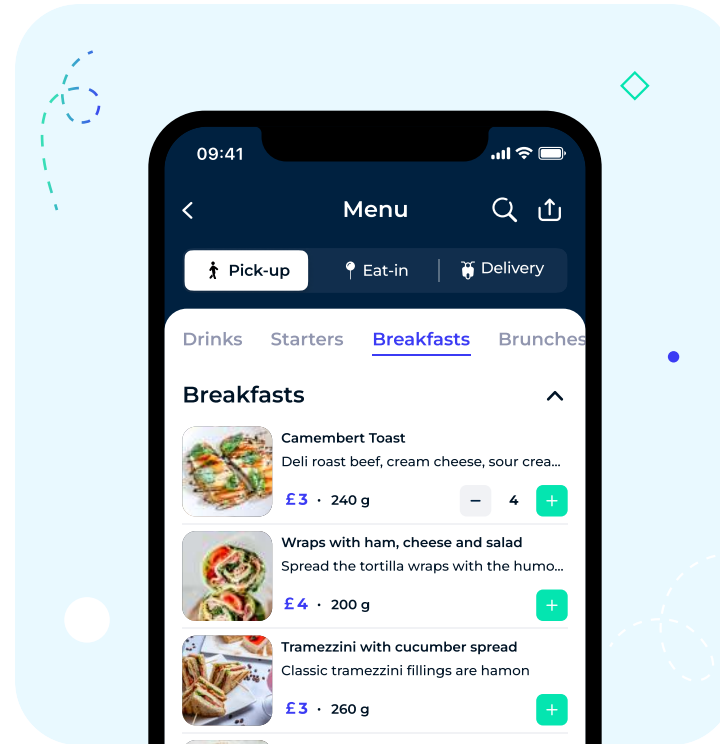

The screenshot displays the 'Business profile' section of the Places app. The left sidebar contains navigation options: Dashboard, Business profile (highlighted), Promo offers, Events, News, Chats, Funnel, Affiliate program, Financial report, Clients, Reviews, and Orders. The main content area shows a search bar, the 'Business profile' title, and tabs for Menu, Photo & Video, Information, and Location. The 'Menu' tab is active, displaying a list of menu items with columns for Photo, Name of Product, Category, Weight g, Cost £, and Description. A 'Set up menu functions' section includes toggle switches for Eat-in (checked), Pick-up, and Delivery. A light green callout box at the bottom left of the app interface reads: 'Upgrade to Pro to get all features' with a 'Upgrade Now' button and an arrow.

Photo	Name of Product	Category	Weight g	Cost £	Des
	Camamber Toast	Breakfast	200 g	2 £	Vege
	Camamber Toast	Breakfast	200 g	£ 2	Vege a hir

	Bagel with herbal cream cheese	Breakfast	200 g	£ 2	The salt
	Salted pretzel with butter	Breakfast	140g	£ 4	Who syr
	Tomato-spinach bruschetta	Breakfast	350g	£ 2	Crus rub

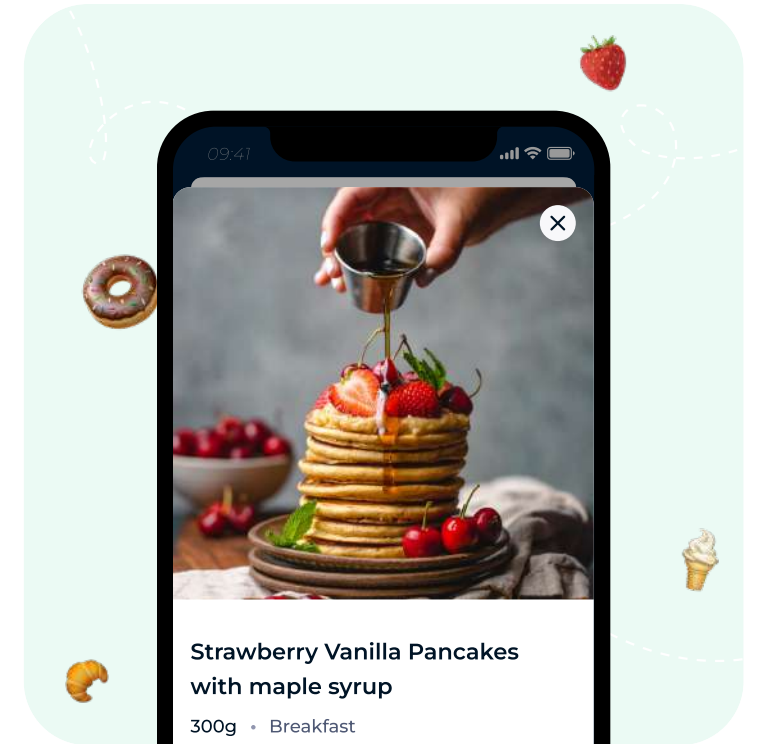

Product overview: Business

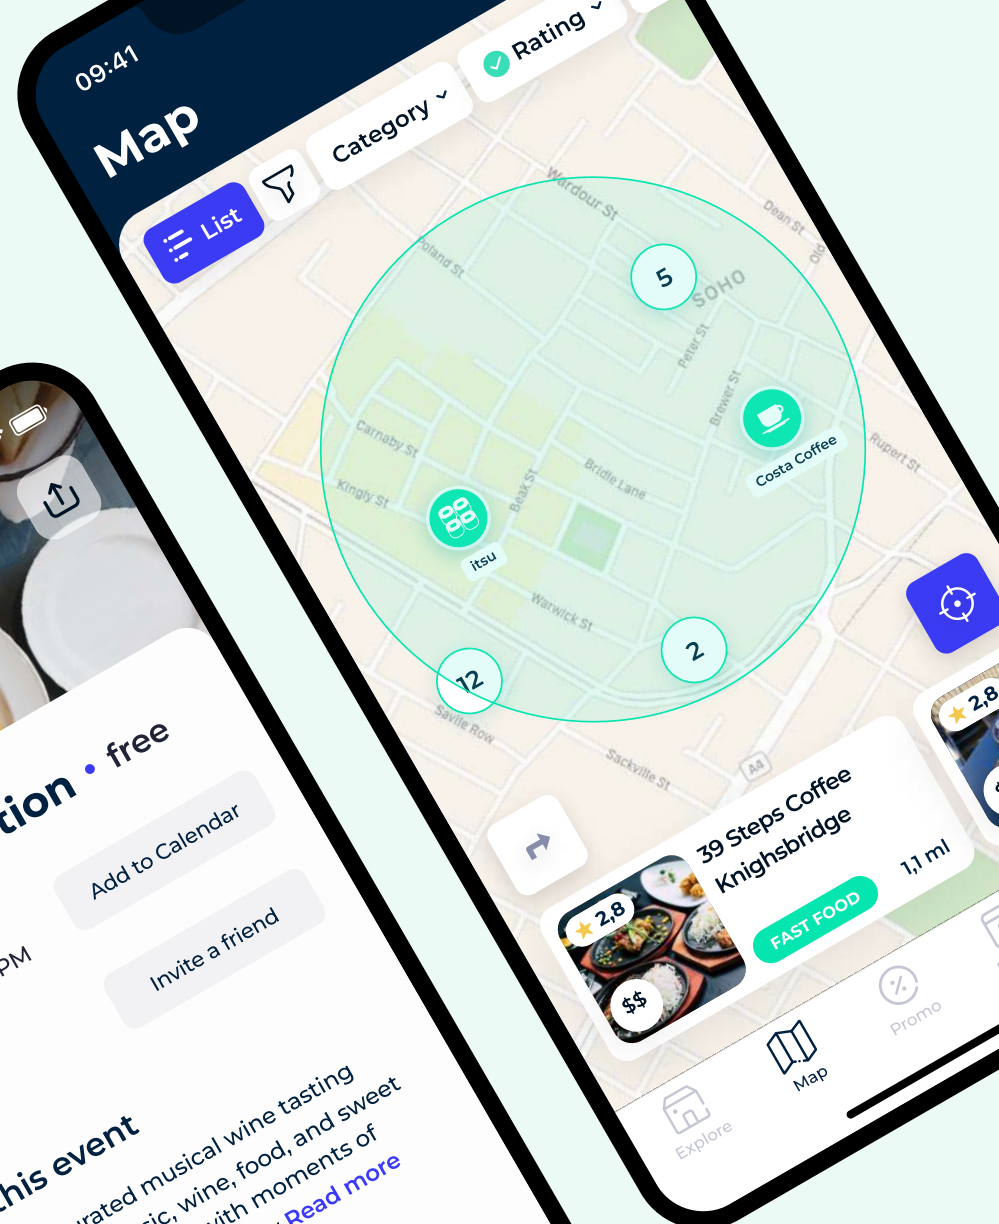

Time to find a place for dining out is an important concern for customers.

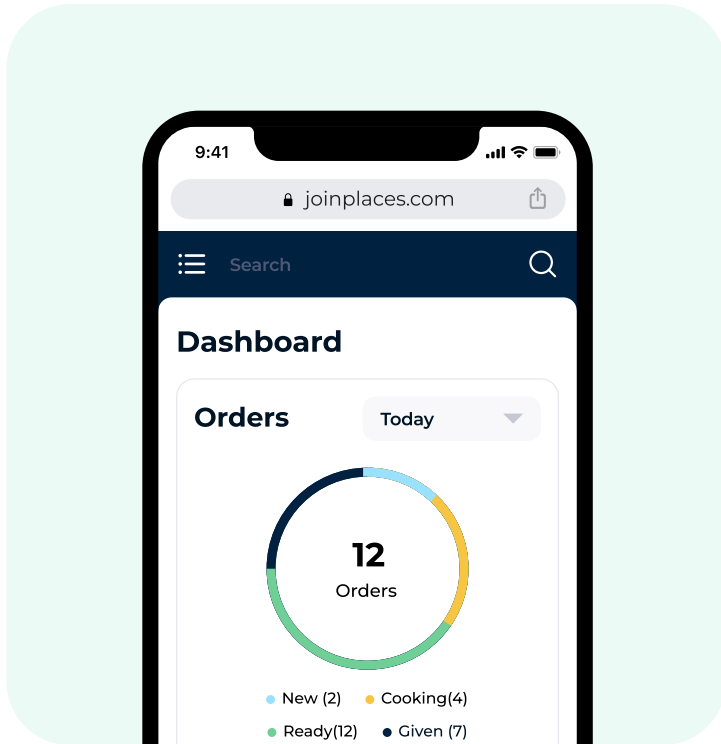

Many food places changing menu, working hours, location and other rules, especially during COVID-19 times.

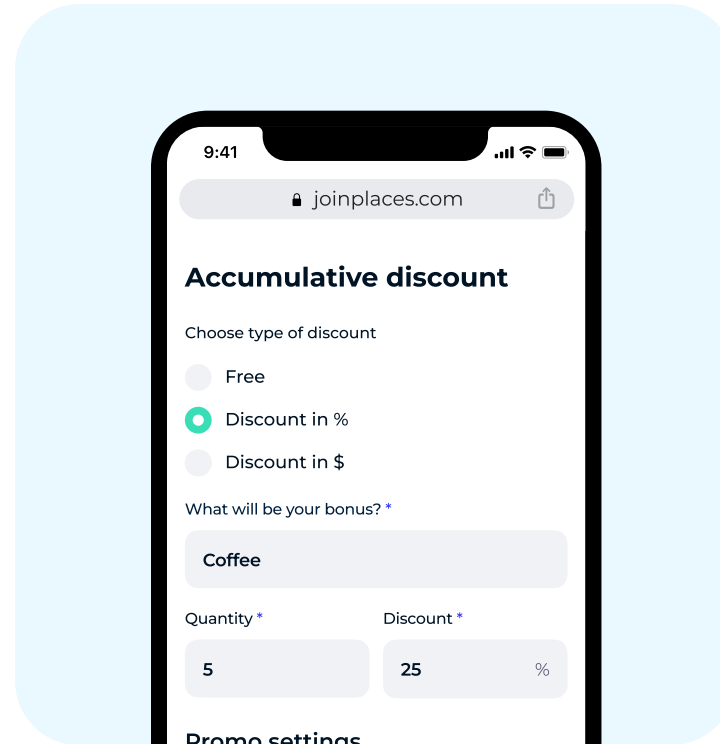

No easy way to find food places with all information updating real time in a single App.

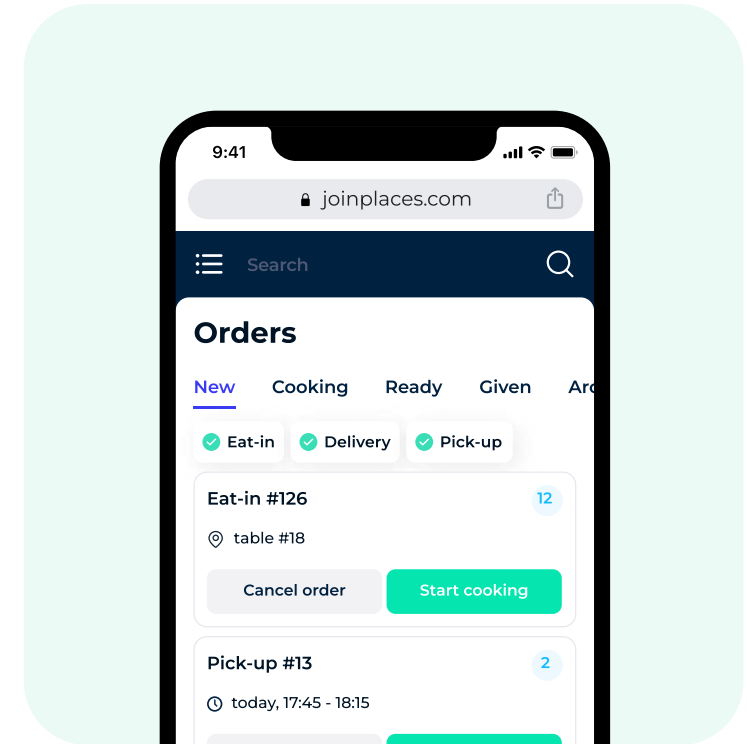

Product overview: Business

The restaurant industry has been one of the hardest-hit areas of the global COVID-19 pandemic.

The consumers' eating out habits and behaviour constantly changing.

No easy way exists to manage customer relationships and see the key insights about customers' behavior in a single App in real time.
